RENTAL ORDERS

School boards qualifying for the rental discount of 40% should indicate below whether these books are being purchased for use in the Textbook Rental Plan. Otherwise, this order will be billed at 15% discount. Check regulations on next page.

☐

I certify that this order is for use in the Textbook Rental Scheme as approved by the Department of Education and all approved rental texts should be billed at 40% discount.

Signature of Authorized Official

TEACHERS PLEASE NOTE

A discount of 15% will be granted to teachers purchasing books for their own use or for resale to students with the understanding that the students will receive full benefit of the discount granted. No charge accounts are permitted for teachers or students.

Remittance enclosed \$ _____

ORDERING INSTRUCTIONS

RENTAL PLAN BOOKS

1. This order form lists all titles which the Curriculum Branch recommended be made available to school systems. **Rental Texts, which are subject to 40% discount, are listed in red. All other titles are eligible for 15% discount.**
2. Rental texts which may be changed in the next three years are marked (*). School boards with rental schemes will not be expected to replace these immediately a new authorization is made, but will be expected to replace the texts over a period of not more than three years.
3. School boards wishing to join the Textbook Rental Plan should write to the School Book Branch for application forms. Extended credit terms are available to school boards entering the Rental Plan for the first time. Write to the School Book Branch for details.
4. A school board, in order to avail itself of the rental discount of 40%, must rent approved books to students at a rate not to exceed 1/3 of the net cost of books to the board. It does not apply to books purchased for resale.
5. A school board which loans free texts to individual students for their personal use will be deemed to be operating a Rental Plan.

SPECIAL ORDER SERVICE

The School Book Branch is prepared to special order all recommended titles listed in the Curriculum Guides which are not regularly stocked by the Branch. Delivery of special-order items normally takes from 3 to 6 weeks. However, during the peak season in July, August and September preference will be given to regular stock orders. Special orders received during these months may not be processed until October. Therefore, school boards and teachers may find it advantageous to secure special order titles through private sectors during this period. **Books purchased on special-order basis are not returnable.**

PRICES

Although subject to change without notice, prices will be maintained, so far as possible, until March 22, 1974.

SHIPPING

The School Book Branch prepays all shipping charges in Alberta.

RETURNS

It is expected that school boards and teachers are in a position to determine their needs very accurately. Therefore, the School Book Branch has no provision for a "returns" policy. However, should any customer encounter a problem with surplus books, it is suggested that a request be submitted to the Manager of the School Book Branch regarding the possibility of returning the books for credit. No returns will be accepted without prior authorization. Please note that a handling charge of 10%, based on the retail value, will be charged against all returns.

SHIPPING ERRORS

We take extreme precautions to make certain that books are shipped as ordered. Nevertheless, in spite of our efforts to be accurate, errors may occur. Please check all shipments carefully and report any discrepancies immediately. Do not stamp or mark any books until you are satisfied that the correct title, edition, etc. has been received. **No books will be accepted for adjustment or credit if they have been stamped or otherwise made unsaleable; therefore, carefully check each item before stamping, pricing, etc.**

FRENCH

Teachers who offer instruction in French according to Section 150 (1) (a) of the School Act (1970) should write to the School Book Branch for a special catalogue listing available instructional materials.

P.A.B. CODE

To assist school jurisdictions in identifying and coding book orders for P.A.B. classification, the column entitled "P.A.B. Code" has been provided (this column can easily accommodate at least six digits). Each school jurisdiction should establish policy and procedures for their schools in using this column. A school **should not** use the column until specific instructions have been given by the central office.

It is anticipated that this column might be used for "Function-Program-Sub-Program" coding. The expenditure object code would not normally be required if the bulk of the order consisted of textbooks rather than library or reference books, e.g., the object code would simply be "Textbooks-640." However, the classification coding detail to be utilized in this column is totally at the discretion of the individual school district.

In invoicing orders, the School Book Branch will transpose the code number onto the invoice if requested.

* * * *

To help ensure accuracy, please use this order form. Additional copies may be obtained on request.

Secondary School Social Studies
Resource Units

SOCIAL STUDIES

Two publications pertaining to references for the social studies were distributed in the fall of 1972. These resources lists are service publications, and are not prescriptive, inasmuch as the titles included have not been recommended as primary references. Furthermore, the non-inclusion of any title should not be interpreted as a sanction against its use. They were developed as guides for use in establishing basic libraries. The titles listed represent a selection from a vast amount of useful material. However, attention was given to printed items almost exclusively. Information concerning non-print items is available from various other sources, including the Audio Visual Services Branch of the Department of Education.

The evaluation and selection of suitable resource materials for the social studies — both print and non-print — is regarded as an on-going process requiring attention within all school systems. Teachers are reminded that they are responsible to their employing school boards with respect to the suitability of resource materials they have selected for use in instructional programs.

The School Book Branch will stock the following titles. Others may be obtained through special orders placed with the Branch.

SOCIAL STUDIES

Two publications pertaining to references for the social studies were distributed in the fall of 1972. These resources lists are service publications, and are not prescriptive, inasmuch as the titles included have not been recommended as primary references. Furthermore, the non-inclusion of any title should not be interpreted as a sanction against its use. They were developed as guides, for use in establishing basic libraries. The titles listed represent a selection from a vast amount of useful material. However, attention was given to printed items almost exclusively. Information concerning non-print items is available from various other sources, including the Audio Visual Services Branch of the Department of Education.

The evaluation and selection of suitable resource materials for the social studies — both print and non-print — is regarded as an on-going process requiring attention within all school systems. Teachers are reminded that they are responsible to their employing school boards with respect to the suitability of resource materials they have selected for use in instructional programs.

The School Book Branch will stock the following titles. Others may be obtained through special orders placed with the Branch.

For Call No. check S.S. guide behind Info. desk
